The fortress was regular and beautiful, constructed chiefly with brick, and was the largest, most regular, and perhaps most costly, of any in North America, of British construction: it is now in ruins, yet occupied by a small garrison; the ruins also of the town only remain; peach trees, figs, pomegranates, and other

shrubs, grow out of the ruinous walls of former spacious and expensive buildings, not only in the town, but at a distance in various parts of the island; yet there are a few neat houses in good repair, and inhabited: it seems now recovering again, owing to the public and liberal spirit and exertions of J. The association of obesity with diabetes and cardiovascular disease risk in the general population is well established, but obesity as determined by body mass index BMI is uncommon in long-term survivors after HCT.
